Friday, November 24, 1911

The Hyde, McNamara and Patterson cases have not been on the docket as long as Jarndyce vs Jarndyce was, but then they didn't get an even start.

Roosevelt is scoring Taft's administration direct, not as formerly by faint praise. If the president can get LaFollette and Roosevelt where Senator Stone thinks he has Folk and Clark he won't win of course, but improves the chances for a democrat.

Rapid convictions of the 14 men engaged in tarring Miss Mary Chamberlain at Shady Bend, Kas., are being secured. Several plead guilty and told on others. The Sheriff seems to have had a hand in it. \$100

finer and 3 months in jail is rather light, but the black stain each of the guilty will wear is worse and discolors and hurts worse than the tar did the young lady.

The successful prosecution of the Harvester trust by Attorney General Elliott W. Major was a splendid achievement. General Major has won laurels for himself and the highest kind of consideration at the hands of the people of the state for his applied ability. Throwing the attorney general of the United States off the track, thereby escaping federal prosecution, it had little fear of results in the undertaking of our Attorney General, but it waked up to find the judgment of the Supreme court, against its doing any more business in this state. It developed during the trial that it sold farm implements in foreign countries far less than to the farmers at home, a fact which has been denied by it and protectionists for years. It remains only to enforce the judgment and break the hold this iniquitous organization has so long enjoyed

and profited by from producers of this state.

The little preliminary in the political game by which he apparently expects to win in the next Senatorial Campaign, and succeed himself, may have been necessary for his purposes, but the Senior Senator from this state has made no new friends by it and unquestionably lost many old ones. Evidently he has thought it necessary to stir up a big muss between Folk and Clark and their friends and profit by it, but with no concern for its effect on the party. Senator Stone and Champ Clark have been highly favored—have been handed by the Democrats of the state whatever they have asked for. They still have a right to ask for anything else that is loose, but not at the expense of everything else not securely fastened. This state is democratic if not dominated in the way which has turned it over to the republicans more than once. There are other offices sought by as good democrats as Stone, or Clark which are being jeopardized by the course these gentlemen are pursuing, and if Clark and Folk permit themselves to be drawn into a war of extermination by Senator Stone, no prophet is required to forecast the effect on all state offices and the senatorship. The gum shoe senator put his foot down too hard this time and his trail to at least one place where he is hiding the shells of the eggs he is sucking has evidently been discovered.

Soyer's General Directions

For Paper Bag Cooking

Select a bag that fits the food to be cooked. Grease bag well on inside, except in case of vegetables or when water is to be added. When food is seasoned and otherwise prepared, place in bag, fold mouth of bag two or three times and fasten with a wire paper clip. Also fold and clip corners of bag to make it fit food snugly. If bag leaks in cooking, do not transfer food to a new bag. Simply put the bag within another.

Place bag in oven (gas, coal or oil,) on grid shelves or wire broilers, never on solid shelves. Place seam side up always. Do not move or open bags when once placed for cooking. Put roasts and entrees on lower shelf, fish on the middle, pastry, etc., on the top, where heat is most intense. Have oven hot (200 degrees Fahr.) by lighting the gas eight minutes before putting in bag, then slack heat one-third to one-half as soon as the bag corners turn brown. Do not let bag touch sides of oven or the gas flames. Adhere to time given in recipes, then food will be well cooked.

Take up bag by slipping the lid of a tin pot underneath it. To secure gravy, let out water, etc., stick a pin hole in bottom of bag and drain over a dish.

Except in case of pies, no dish should be used in paper bag cooking.

J. R. Chrisman of Lagonda was in to see us Monday. His brother Luther, got back home from Dakota Saturday, or rather was chased back by the cold wave.

For Sale or Exchange

I will exchange my 80 acre improved farm for an improved farm or an improved 40 near Keytesville, Salisbury or Brunswick, or will sell reasonable. One half mile from my postoffice.

Thos. Trow,

MRS. LEE CUDDY

KEYTESVILLE, Mo. 4t

Ralph Davidson of Kansas City has been secured by J. H. Davis to preside at a chair in the Palace barber shop.

I am in the market for some brood sows, breeding ewes, (Shropshire) preferred, and a gentle riding pony. One 3-year-old mule to exchange for other stock. B. C. SMUTZ.

Dick Dameron came in last Saturday in his new, big Rambler automobile. About 2 miles east of town he saluted some parties, supposedly ladies, when the machine took advantage of his looking the other way and sailed into Felix Langers fence, knocking out seven posts and clearing the row. No damage to the machine and but little to Dick's pure English. He came from Kansas City to Glasgow over the state highway and reports it about as bad, most of the way, as any road in the county. He says the ferry at Glasgow gets you across alright, at \$1 a trip, but hereafter he will go the northern route when he has occasion to go west, and advises everybody else to do so.

Hon. Willard P. Cave of Moberly had some important cases before circuit court Friday.

Mrs. A. S. Taylor was given a pleasant surprise by her children, Mrs. Don Mason, Geo. West, Milt Bennett and their families and others last Saturday, Nov. 18, when they appeared at her home in the Southern part of the city and proceeded to celebrate her 66th birthday. The enjoyment was mutual all round, and the Judge gave it out that he would have a birthday some of these days.

Quite a number of distinguished lawyers from out of the county as well as all of them in the county were on hand at court this week.

A Curious Sight

Did you ever see a Watch completely buried in a cake of ice, ticking merrily away—keeping perfect time?

Thousands of South Bend Watches prove equal to this test every season.

This is only one of the many ways by which people have been brought to realize that the South Bend is the master of time pieces.

South Bend Watches

I SELL THEM. I chose South Bend Watches in preference to all others, because through my technical knowledge of watch construction, I have learned that the South Bend is the one watch susceptible of perfect adjustment.

No matter what be a man's occupation or temperament, I can adjust a South Bend to his person and it will keep perfect time.
